Delegates participated in a range of Baraza groups and focused on the true values learned through 'the journey that makes us the people we are,' today. The conference, in all, was deeply inspired by the innumerable key note speeches delivered, sharing the soul stirring

stories about people who walked from the coast of Antarctica to south pole and back again and about those who confronted ISIS, faced the terror of death not once but uncounted times. These stories ultimately led the delegates to comprehend that these back-breaking journeys make the real us.

The conference also celebrated Round Square's 50th birthday wherein delegates from different countries flaunted their culture through various performances, shared love and contributed to building a global community.
